

THE RESILIENCE DIAGNOSTIC ASSESSMENT

The resilience, wellbeing and mental health assessment tool

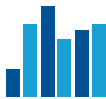

The Resilience Diagnostic provides a detailed insight into the wellbeing, resilience and effectiveness of your people. Reporting on 60 factors of resilience, participants receive individualised recommendations and a comprehensive self-development toolkit. The assessment takes under 10 minutes to complete and the personal Interactive report is available immediately.

Organisations receive a powerful aggregate report, revealing group resilience assets and risks. With regular psychometrics and datamining, you can be sure that it works.

EFFICIENT

Takes less than 10 minutes to complete.

COMPREHENSIVE

Provides a report detailing 60 factors of resilience.

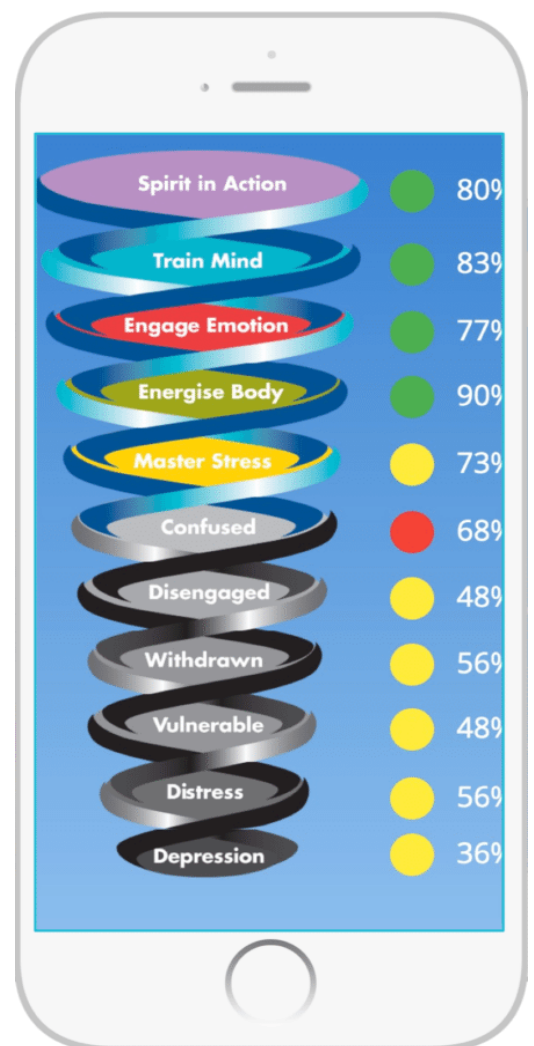

SCALABLE

Easy to roll out across organisations of any size.

SAFE

Secure and confidential.
